

Hands-On Training on

Artificial Intelligence-Challenges, Latest Trends & Implementation Strategies

Contents:

- Artificial intelligence fundamentals
- Hands-on training, modeling & simulation with related examples
- Practical scenarios using the Big-data & Deep learning algorithms
- Models and working mechanisms in related simulation software
- Implementation strategies including pre & post-processing of data
- In-depth exploration of the State-of-the-art emerging trends
- Research thesis directions & applications

Who Should Attend?

- Professionals in the industry, banking, health, and management
- Faculty members and Students from any background desirous to get in-depth knowledge

Features:

- Classroom training
- Certificate of Participation
- Lunch & Refreshments

Learning Investment:

- 5000/- PKR for NUST Students
- 10,000/- PKR for Non-NUST/Faculty Members
- 20,000/- PKR for Professionals
- EME Students are eligible for 50% discount
- 60% discount for group of 5 students

Date: Saturday, May 21, 2022

Time: 09:00 – 17:00
